

Subscription Service

La Mirada Transit (LMT) offers recurring trips that may be scheduled in advance during the Winter, Spring, Summer and Fall seasons. To request a subscription on LMT, call (562) 943-6776 Monday through Friday 6:30 a.m. to 6 p.m. or Saturday 9:30 a.m. to 4 p.m.

Winter subscriptions request may be made starting on the First Friday of November for recurring trips between January and March.

Spring subscription request may be made starting on the First Friday of March for recurring trips between April and June.

Summer subscriptions request may be made starting on the First Friday of June for recurring trips between July and August.

Fall subscriptions request may be made starting on the First Friday of August for recurring trips between September and December.

Your request does not guarantee you a subscription. New request must be made for each season. LMT will contact you within three weeks of your request to inform you if it can be accommodated.

LMT is a shared ride public transportation service available to the general public on a first-come, first-served basis and does not guarantee specific pick up and drop off times. Available subscriptions are typically filled shortly after LMT begins accepting requests. If your requested subscription is unavailable, you may be offered an alternative schedule or be placed on a waiting list. Same Day, Advance and Medical reservation services are available during the year based on availability.

If you are not going to ride on a scheduled trip, please cancel your trip by notifying LMT as soon as possible. Early cancellations allow for others to schedule trips. To cancel when the office is closed call (714) 521-5278 and leave a message with the passenger's first and last name, pick-up location, and scheduled appointment time(s) you wish to cancel. **Passengers who miss three consecutive trips or five trips within a thirty day period without cancelling may lose their subscription trip privileges and not be allowed to request a new subscription for one month.**
